Примеры

Сценарий: Приходит Ева (Factory Girl). У неё \$100 и запрос на супер-бюджет.

Игрок собирает: Heavy Steel MTB (\$50) + No-name 3×7 (\$20) + Cheap V-Brakes (\$15) + Plastic Saddle (\$10) = Итого **\$95**.

Статы: Speed (-30), Comfort (-80), Durability (+20).

Байк ужасный, но это именно то, что она может себе позволить!

Сценарий: Приходит Виталя (Fixie). Ему нужна Скорость и Стиль.

Игрок собирает: Track Frame + Fixed Cog + Brakeless + Skinny Slicks + Clipless Pedals = **Speed (+150), Style (+180)**.

Виталя в восторге уезжает в закат без тормозов.
