1-2-star

Bike broke down on day three right before my shift. Had to drag this heavy pile of crap all the way to the gate. Got fined for being late. Worst purchase ever, should've stuck to the stupid bus.

3-4-star

Meh. It squeaks, it's heavy as hell, but it gets me to the factory and back home. I guess for this price I couldn't expect a Rolls-Royce. At least I don't have to smell strangers' farts and sweat any longer.

5-star

Absolute lifesaver! Saved me so much time and bus fare. The bike is super basic and heavy, but it is built like a tank! Now I get to sleep 30 minutes longer. Ash is a legend!
